Professional Summary	Motivated and fast-learning full-stack developer with a solid foundation in React.js, Vue.js, Django, Laravel, and MySQL. Skilled in building personal end-to-end projects that reflect real-world software development practices, including responsive UI design, API integration, and database management. Actively seeking an internship to gain hands-on industry experience, contribute to real team projects, and continue growing my technical and professional skills. Passionate about problem-solving, learning new technologies, and creating clean, user-focused applications.
Technical Skills	**Frontend Development** • React.Js, Vue.Js, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+) **Backend Development** • Python (Django, Django REST Framework), GraphQL, PHP (Laravel) **Database & DevOps** • MySQL, Netlify **Testing & Tools** • Git, GitHub Actions, Postman, Altair
Soft Skills	Leadership, Agile Methodologies, Problem-Solving, Team Collaboration, Mentorship
Work Experience	**Full-Stack Developer (Personal Projects)** 2024 – 2025 • Built multiple full-stack web applications from concept to deployment using **React.js**, **Vue.js**, **Django**, **Laravel**, and **MySQL**, demonstrating strong understanding of modern development practices. • Designed responsive user interfaces, implemented reusable components, and integrated REST APIs to deliver fully functional features. • Developed backend logic, authentication systems, and database schemas, gaining practical experience with CRUD operations, relational data modeling, and API development. • Deployed applications on platforms such as **Netlify**, gaining exposure to hosting and basic CI/CD workflows. • Practiced version control with **Git** and GitHub, utilizing branching, pull requests, and issue tracking to manage project iterations effectively.
Selected Projects	**Nyimbo Zetu –** Music Streaming Platform *Vue.Js, GraphQL, Laravel, MySQL*

	• Engineered dynamic Upload Song feature using GraphQL mutations, supporting PDF and Audio uploads ensuring smooth song uploads. • Built a responsive UI with Tailwind CSS and implemented Vue Router for seamless navigation. • Integrated Apollo Client to modernize frontend-backend communication, enabling scalable GraphQL queries and mutations for multiple application modules. **Dreamway Tours –** A travel site *React.js, Tailwind CSS, Netlify* • Designed and implemented responsive user interface using react.js components ensuring reusability and allowing for scalability of features. • Used Tailwind CSS for styling and ensuring a responsive design and cutting the development time while using the Tailwind classes. • Successfully deployed the platform on Netlify, enhancing practical knowledge of hosting workflows, continuous deployment, and production-level debugging.
Education & Certifications	**B.Sc. Mathematics and Computer Science (**Expected 2027***)*** *Jomo Kenyatta University of Agriculture and Technology (JKUAT)* **ALX Africa - Back-End Development (**In progress**)** *African Leadership Program (June 2025 – February 2026)* **Responsive Web Design and Development (**HTML, CSS, JavaScript**)** *Sololearn (2023)* **Search Engine Optimization (SEO) with AI** *Sololearn (2024)*
